Project Acknowledge

As we understand that the eProject is a step-by- step learning environment that closely simulates the class-room

and Lab based learning environment into actual implementation. It is a project implementation at your fingertips!! An electronic, live juncture on the machine that allows you to

- o Practice step by step i.e. ladder approach.
- o Build a larger more robust application.
- o Usage of certain utilities in applications designed by user.
- o Single program to unified code leading to a complete application.
- o Learn implementation of concepts in a phased manner.
- o Enhance skills and add value.
- o Work on real life projects.
- o Give a real life scenario and help to create applications more complicated and useful.
- o Mentoring through email support.

Project Objectives

The Objective of this program we aim is to give a sample project to work on real life projects. These applications help us build a larger more robust application.

The objective is not to teach us JavaScript/Dreamweaver but to provide us with a real life scenario and help us create basic applications using the tools.

Hence, we can revise the chapters before we start with the project.

This project is meant for students like us who have completed the module of HTML5. These programs should be done in the Lab sessions with assistance of the faculty if required.

It is very essential for us that will have a clear understanding of the subject. We think we should go through the project and solve the assignments as per requirements given.

And get back @ eprojects@aptech.ac.in as the assigned schedule.

Synopsis

sports club is a sports center developed and equipped with international quality and high standards focused on sports and health care. sports club is considered to be the best in terms of equipment and facilities to support sports and fitness activities. In addition, image and prestige are increasingly recognized world.

sports club is equipped with a wide variety of facilities including indoor sports, outdoor and outdoor activities.

To build a better image and reputation, sports club needs to develop a website that shows all the information and images important to impress the customers (who are) are and will participate. go to Sports club.

This website needs to be based on technologies that use HTML5, Javascript, and Geolocation. And it should work well on all popular browsers in the current trend (eg Safari, IE, Chrome, FireFox, etc.).

Design Plan: Sports Club	Document Name: Problem Definition	SWD/Form No.01/PD/Ver1.0
Effective Date: 05/02/2018	Version 1.0	Page No: 1/22

Problem Definition

Sports Club, an effort has been made to provide a world class facilities and infrastructure for the promotion of sports and health. During the past time, sports club has emerged as one of the best facilities in the country in the area of sports and health and also it is making strides to acquire a formidable presence in the international. The club provides the facilities like “Indoor Sports”, Outdoor Sports” and “Recreation”. All this information is required to be presented in organized form for which a website is required to be created.

Functional Descriptions

Home (HomePage):

Includes information about the club (biography, information, organization ...) must be expressed in a friendly interface.

Navigative Bar links to the necessary content in each specific item.

Physical Facilities:

Must have links to clear and tight, easily recognizable. Mainly classified into different types depending on the nature of the sport:

- Indoor Sports
- Outdoor Sports
- Recreation activities

About Membership Options:

There will be "Forms" for the registration of the applicant. (The form is designed based on the necessary information such as: personal information, registration limit ...)

- In terms of the annual activities of the club (Events / Activities), there must be specific information to facilitate participation and consultation.

- In terms of receiving feedback from customers, there should be entries for suggestions, complaints, and feedbacks.

- For the contact item: must include the necessary contact information such as:

- Company Address: Geolocation API integration (Example: Google Maps ...)

- Email: When you click on the email address, the user will be linked to the email compose window from the user (To the email address of Sports Club).

- About the sports that are played at Sports Clubs: It is important to demonstrate the following structural criteria

Data processing

User

Input

- Registration information for sports Club members
- Member card information to register
- Contribute to the club

Process

- Search / refer to membership club membership information
- Log in to check / update personal information in your registered account
- Check the information provided for the club

Output

(users will receive the following notifications)

- Successful registration notice
- Notice of successful information change
- Notification of registered service packages and expiry date.
- Notice of registration / change of information failed.

Webmaster

Input

- Login information to administer the website
- Information to change / add or delete: Updates on price changes, features of each service pack, articles that change seasonally ...
- Deletion of membership information that is no longer part of the club.
- Get feedback and reviews from user

Process

- Change / add / remove service packs that no longer serve
- Change / add / remove membership information no longer joins the service
- Reply / delete comments from users

Output

- (the website manager will place the following message)
- Successful registration / change / deletion of member account information or failure.
 - Respond to success / failure suggestions

Hardware / software requirement

User

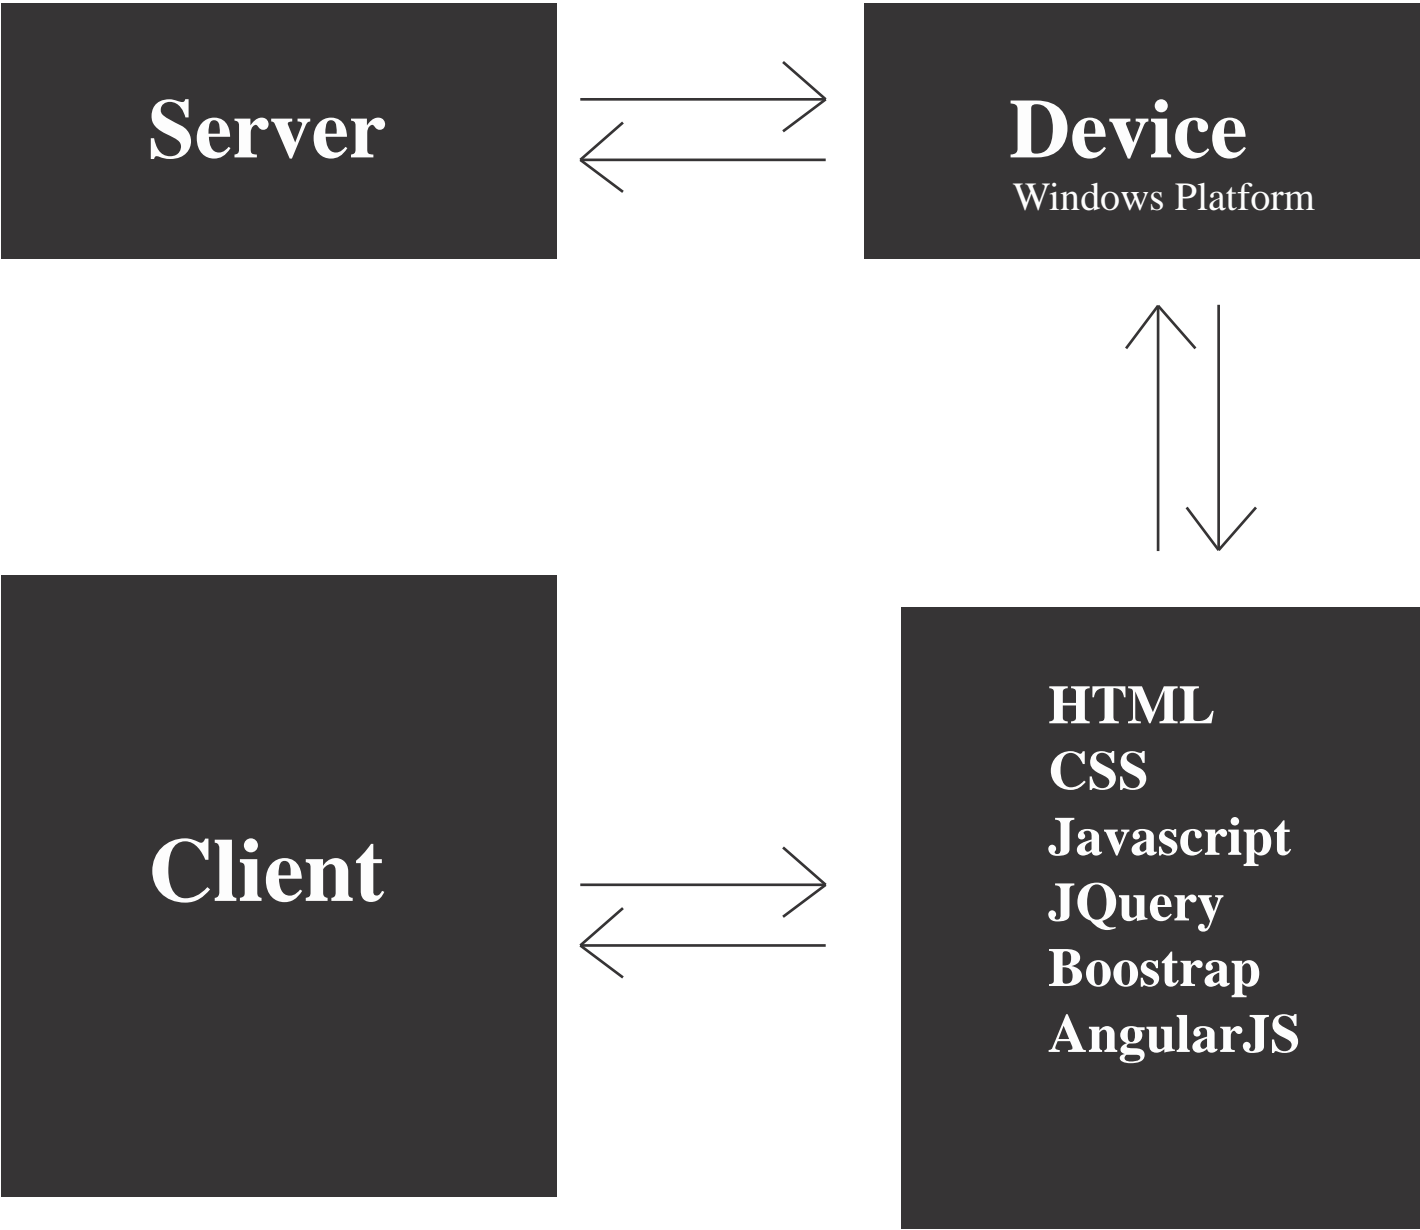

- PC: from Pentium 166 or upper
- RAM: from 64 Megabites or upper

Webmaster

- Notepad/HTML editor
- Dreamweaver
- IE 5.0/ Netscape 6.0

THANK YOU

We would like to send a great thank to our professor Nhan Le and others student for the addor-able supports during the time in project.

Beside serveral mistakes we had made in the project, we hope to have more oppotunities to widen our knowndge in web developing world.

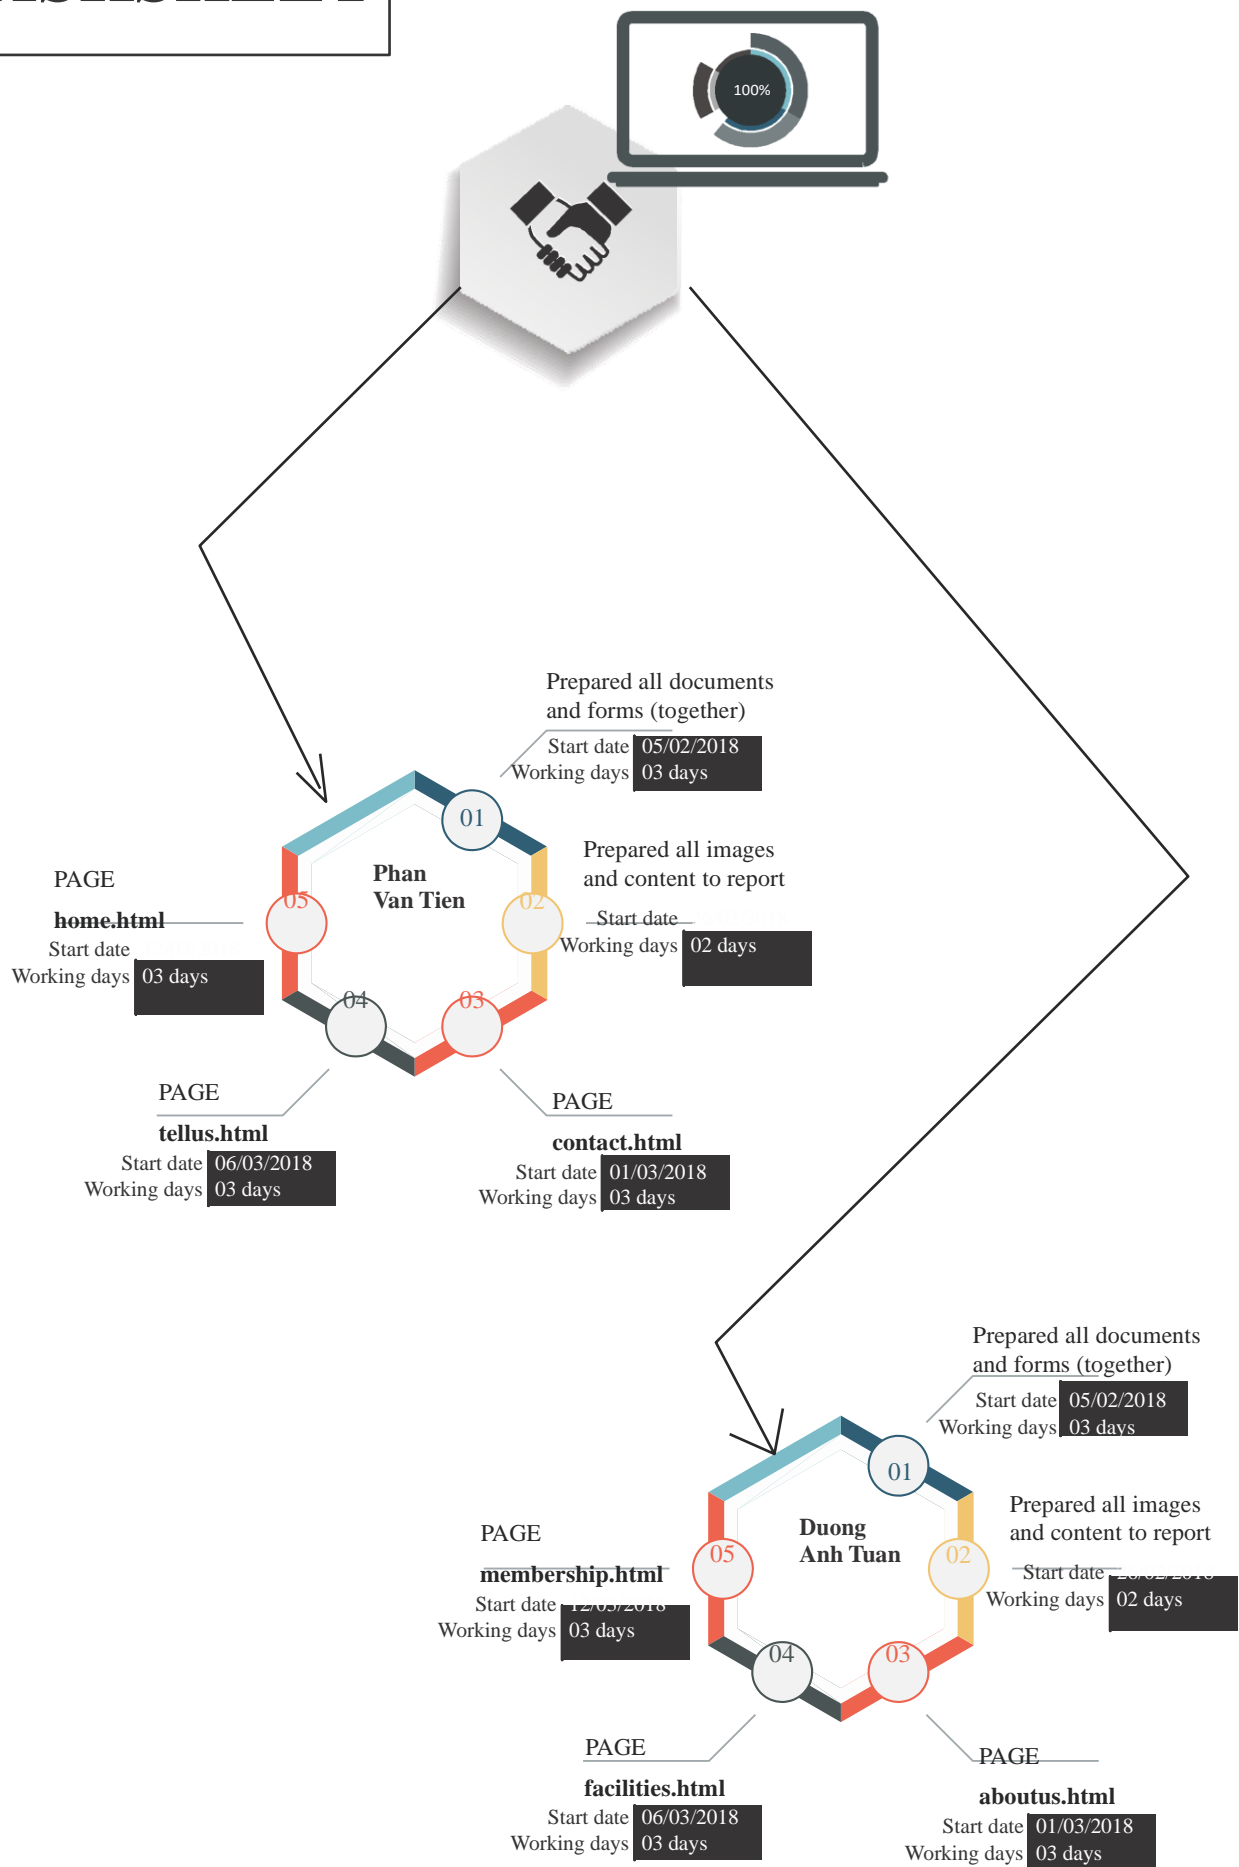

We also thank you so much for your infomation and the “demo” project from India APTECH to help us get more reality experience in this project. Since we have gained more experience from this project, we will not stop learning any thing as much as we can to be more successful in the future.

Your Sincerely,
Team Group 6

Leader : Duong Anh Tuan

Member: Phan Van Tien

TASKSHEET

USER GUIDE

- Before you begin, please make sure that you have a working internet connection.

- Click on Home.html locate inside the folder Source file to get start

HOME

LOGO

- The logo and Website name lie on the top left corner of the page
- Click on the logo to go to the homepage.

NAVIGATION BAR

- Navigation bar contain information about all the main pages of the website, locate right underneath the logo
- To go to a particular page, click on the page name in the navigation bar:
